***Response to Arguments***

With respect to applicants arguments to after final action dated 6-19-00, and with respect to Applicants revised Declaration under 37 C.F.R 1.131, there is nexus between the drawings in 5,379,351 and drawings that came with Applicants revised Declaration under 37 C.F.R 1.131, which are generic drawings that are typical on any computer circuit board.

And also there is no connection between drawings in 5,379,351 patent and drawings in the present invention. In view of this, the applicant has not established priority for his invention to filing date of '351 patent and also has not established an earlier date for his invention than Iwaski reference. Therefore rejection of claims 1-14 is maintained as detailed in the final office action dated 6-19-00.
